## STELLINA BLUE Premieres at 5<sup>th</sup> Annual ReelHeART International Film Festival (RHIFF)

Los Angeles, CA –The new independent feature film drama, **STELLINA BLUE**, will premiere at **5th Annual ReelHeART International Film Festival** on Friday, June 26, 2009.

The drama is written and directed by [Gabriel Scott](#) (The Run) and produced by [Christina Mauro](#) of Fly High Films and Twin Productions. This film stars Christina Mauro, (11 Minutes Ago), [Chris Kramer](#) (The Collector), [Richard Riehle](#) (Office Space), [Maree Cheatham](#) (Mr. & Mrs. Smith), [Muse Watson](#) (NCIS), and [Navid Negahban](#) (Charlie Wilson's War).

Stellina Martin leads a reclusive and mundane existence, exactly how she likes it. In a single moment everything changes. Shot during a failed robbery attempt, she fights for life during a month-long coma and awakens to find she has been given a second chance, and an extraordinary gift.

**STELLINA BLUE** is a tender and touching love story. Yet, the "love" in the love story isn't of the romantic nature (though there are hints of such love), but rather the love we are called to have for one another." *Richard Propes, the Independent Critic.*

"We made this film to reflect on the role of hope during the deepest, darkest times of a human being's life. No matter the differences across race, nationality, or culture, people have the innate capacity to hope. The key, however, is not to lose sight of this capacity. *Stellina Blue* examines what happens to people when they are confronted by a miracle and whether or not they are able to access it via hope."

**STELLINA BLUE** will play on Friday June 26, Main Program B at 1:45 PM at Innis Town Hall, Innis College, 2 Sussex Street, U of T Campus. 1 Block South of St. George Subway
